

The Children's Center Rehabilitation Hospital is a nonprofit organization that offers 24-hour medical care, comprehensive rehabilitative therapies, respiratory care, and special education. The Hospital is home to four main areas of service: Complex Care, Pediatric Medical Rehabilitation, Specialty Services and Outpatient Therapy Services.

Assisting families with their challenges and questions is a significant part of our work. Caregivers are considered an essential part of the treatment team. Our goal at The Children's Center Rehabilitation Hospital is to provide collaborative, comprehensive medical and rehabilitative care for children and adolescents in Oklahoma across the continuum of care.

COMPLEX CARE

Our Complex Care program provides coordinated medical, nursing, and respiratory care, rehabilitative therapies and education for medically complex or fragile children. Our Complex Care program supports the child's health and developmental status in a nurturing, stimulating environment. The average length of stay is approximately 24 months.

PEDIATRIC MEDICAL REHABILITATION

The Pediatric Medical Rehabilitation Unit (PMRU) is Oklahoma's only inpatient pediatric rehabilitation program and offers rehab for patients recovering from a traumatic injury or illness. Our team works alongside the patient and family to enhance function and provide training and support for returning back to home, school, and the community. The average length of stay in our CARF – accredited unit is 25 days, based on each patient's goals and needs.

SPECIALTY SERVICES

Comprised by a team of multidisciplinary specialists, the Specialty Services team provides medical care and treatment plans to all children in the region. We have a renowned medical team that specializes in: Pediatric Physiatry, Orthopedics, Pulmonology, Neuropsychology and other pediatric specific disciplines.

OUTPATIENT THERAPY

The team in our Outpatient Therapy Clinic focuses on optimizing the child's function and independence. Our outpatient therapy clinic offers physical therapy, speech therapy, and occupational therapy. Our therapists collaborate with the child and family to set goals and create an individualized therapy plan.
