

The Children's Center Rehabilitation Hospital offers 24-hour medical and nursing care, comprehensive rehabilitative therapies, respiratory care, and special education.

Thrive is designed to provide ongoing medical and developmental evaluation and support for infants with developmental and feeding delays, as well for the families caring for them.

The program focuses on:

- Oral Stimulation/Feeding
- Positive sensory stimulation
- Positioning
- Comprehensive nursing assessments
- Medication management (including tapering and discontinuation of medication)
- Monitoring weight gain, growth charts, and nutrition
- Calming and Coping Strategies
- Visual motor stimulation
- Rehabilitation Assessments for developmental stimulation and support
- Parent education and training

the children's center  
REHABILITATION HOSPITAL

Patients who are admitted to our Thrive Program receive a combination of speech-language therapy, physical therapy, and occupational therapy services tailored to the specific needs of the child.

They will also receive other therapies and interventions such as:

- Music Therapy services
- Equipment Evaluations/Recommendations
- Specialty Consults if needed

Our goal for patients at The Children's Center Rehabilitation Hospital is to provide the training, support and resources necessary for a smooth transition into the home environment.

Parents are an essential part of the treatment team, and are encouraged to room in with their baby. Case Managers will assist the family in coordination of additional care or therapy services that may be needed after discharge.

Private insurance and Medicaid are accepted. To speak with our referral team, please contact [referrals@tccokc.org](mailto:referrals@tccokc.org).
